Some of our campaignposters

Released in February 1995.

The text says: "Agreement makes you feel secure". A campaign that wanted to put an emphasis on the bit by bit torndown in the health- and social securitysystem. We must keep it intact for the elder people and our children. Therefore we must find agreement solutions over partybarriers.

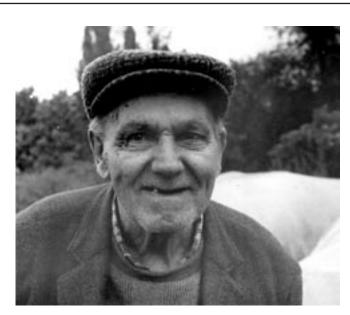

Samförstånd ger trygghet

Released in August 1995

The text says: "There's a Europe outside Brussel". It was the head-poster for Samförståndspartiet during the swedish election to the parlament of EU in 1995. One of the big issues for Samförståndspartiet during this campaign was to put stress on the immediate need to incorporate the old eastern European countries in the EU.

And today we can see that the politicians in Brussel did listen to us.
